Socket and Valor have been best friends—and part time superheroes—for years. When an invasion force threatens the Earth, they form a team of heroes to face the threat. Closeted media darling Valor has no idea that Socket has been nursing a crush on him since their high school days. When a buffer, grittier version of Socket emerges from one of the alien portals, Valor discovers his own attraction, but his refusal to out himself gets in the way of his and Socket's budding intimacy. The alternate Socket has his own agenda, however. One that doesn't include attachments or a team of do-gooders getting in his way.
