What if the best day of your life became your worst nightmare? The start of The Midnight Saga, where Naomi Hamilton is snatched on her wedding night, sedated, taken to a cemetery and shot in the head. Yet she wakes unharmed in an isolated country cottage. Where is she? Who has her? What's happened to her husband? Who will hear her scream from here? The Amazon #1, *Either Side of Midnight*, marks the start of a gripping saga. An edge-of-your-seat unsettling series with shocking twists in every book. Psychological suspense. Fasten your seat belt. You won't know who to trust. "Either Side of Midnight is a must-read book for all mystery and/or suspense lovers. I rate this book as a ten-star and expect to see it as number one on the best selling list for many, many weeks." Reviewed by Trudi LoPreto for Readers' Favorite "Either Side of Midnight is perfect for readers who like books that will screw with your mind. Fans of the Consequences series by Aleatha Romig in particular will love this book. A must read!" Laura Carter, Goodreads librarian. Praise for The Midnight Saga from Amazon readers: "De Clare writes with Dickensian skill, masterfully gathering together the various threads of plot, and weaving them into a picture that - in the end - is as wholesome as it is dark. I was astounded. This series worked for me - not because it is a page turner, but because of de Clare's sensitivity and insight into human nature. The ending was indescribably moving." "What makes this a classic is the way that it wrenches you from your sitting room, transports you into the heads of immensely real characters. The best books are like art: they move you, they stir something within you; they can bring you to tears. This is one of those series." "It is a totally gripping, thrilling, moving and memorable read from an author who gets more convincing, skilful and original with every work she creates. It took over most of my life when I read it because it's powerful prose cries out for attention." "The midnight saga has to be the best series I have read in a long time. Totally brilliant from start to finish. I personally will be recommending these books to anyone who'll listen." "Tori de Clare serves up more of her trademark ambushes for the reader, before deftly guiding us to the conclusion of her fiendishly complex plot." "The quality of writing - an unexpected joy. Twists, turns, simply fantastic." "Loved this trilogy, I was eagerly awaiting this conclusion and I wasn't disappointed. It kept me guessing with the twists right till the end." "Brilliant - couldn't put it down. Should be made into TV four/six part thriller." "Absolutely loved the trilogy. The deep understanding of human nature, the psychological aspects of the main characters are what give substance to these books. I am left empty after finishing this saga. I miss the characters." "De Clare is to writing as Vincent Solomon is to chess! She is a master manipulator - just when you think you know everything you are hit with yet another twist! It's a rare thing in a series where each instalment is better than the last."
